

Stantec Mining Engineering SCHOLARSHIP

Calling second year mining engineering students – here’s your opportunity to receive recognition for your keen interest in the minerals industry, to focus on problem solving, working innovatively, and being responsive to the needs of our communities!

Stantec and the CIM Foundation (CIMF) are committed to ensuring a strong future for the mining and minerals industries through incentives to support and promote education. To encourage students to pursue a career in mining engineering, CIMF is offering the Stantec Mining Engineering Scholarship.

The CIMF is offering one \$2,000 award to an outstanding second year undergraduate student in a mining engineering program in Canada. Applications must be submitted by October 30. The scholarship recipient will be announced in December.

The CIMF provides educational material and supports educational initiatives of the Canadian Institute of Mining, Metallurgy and Petroleum (CIM), Canada’s leading professional association for the mining, minerals and energy industries. CIM has over 11,000 members, 10 technical societies and 29 branches across the country.

CIM FOUNDATION | FONDATION ICM

Send your application to:

Deborah Smith-Sauvé, Manager The CIM Foundation
1040-3500 de Maisonneuve Boulevard West
Montreal (Québec) H3Z 3C1
Email: dsauve@cim.org

Eligibility

Recipient who is a permanent resident of Canada is selected on the basis of eligibility and must be enrolled full time in their second year of a mining engineering undergraduate degree program.

Qualifications

Applicants will be judged on academic achievement, and a commitment to a career in mining engineering.

Application Requirements

Complete application packages must be submitted by October 30 and include:

- The application form
- A transcript of your previous year’s academic studies
- Confirmation of enrollment in a mining engineering or minerals program (photo of your student ID)
- Essay describing what attracted you to the mining industry and what you will do to advance the industry in the future (maximum 400 words)
- Resume
